

Minutes of the May 29, 2013 Water Commissioners meeting.

Present: Marcia Graham, Bill Downey, and Mac McLachlin

The water commissioners had a difference of opinion concerning the company that will be awarded the contract to design, write the specs for and build the new pump house on the Mittersill slopes in the next few months. Bill Downey wanted to award the contract to Stantec Engineering with Rene LaBranche in charge while Richard McLachlin and Marcia Graham wanted to award the contract to LRW, our present water operators. The 2 to 1 vote awards the contract to LRW.
