The meeting was called to order at 11:35 am at Franconia Town Hall.

This meeting is The Safety Committee's 3<sup>rd</sup> Quarter Meeting for 2017.

Today's agenda is Safety Topics for future meetings.

The Safety Committee met on September 26, 2017 and discussed topics for future training. Everyone contributed a vast array of ideas to consider. Here is a sampling of what was presented:

- a) De-escalation training
- b) Safe Driving
- c) Chainsaw Safety

The meeting went on to discuss the value of teamwork and bonding, especially when stressful things come up in the course of time. Having a trained partner helps to alleviate stress and with the knowledge that your partner underwent the same training. Coordinating services with professionalism was also discussed in depth. Ms. Cowles advised rotating past topics so that things will stay fresh, and with some added options to further enhance training.

NEXT MEETING: The 4<sup>th</sup> quarter meeting will be on October 17, 2017 at 7:00 pm with the topic being Blood Borne Pathogens.
